

## **Aug 18, 2009, Gurgaon**

Advit Foundation-Green Stratos Consortium wins the tender for management of Rajiv Gandhi Renewable Energy Park, Sec 29, Gurgaon, India. - In partnership with Green Stratos ([www.greenstratos.com](http://www.greenstratos.com)) Hyderabad, Advit Foundation ([www.advit.org](http://www.advit.org)) has been asked to manage the Rajiv Gandhi Renewable Energy Park by Haryana Renewable Energy Development Agency (HAREDA). This is located in a 1.6 acre area in Sec 29, Gurgaon, adjoining Leisure Valley. The target of this park is to promote energy efficiency, renewable energy, climate mitigation (carbon neutral options) and environment friendly technologies for benefit of civil society as well as business establishments through activities initiated through this center. Advit Foundation as a HAREDA facilitator for the Energy park has already initiated the project of promoting carbon neutrality among corporate as well as individuals in Gurgaon region. Gurgaon presents an excellent opportunity for exposure of technologies to both the civil society and corporate considering that it houses several corporate, MNCs, Fortune 500 companies and technology savvy and environmentally aware local population. Click [here](#) for details of the proposed activities and charter of the Energy Park.
